ADDITIONAL EQUIPMENT

Located in New South Wales, this crane is available now and offers a 59.8m main boom for exceptional reach. It comes with a 42.2T counterweight for improved lifting capacity and features Asymmetric Outrigger Software for enhanced stability. Other features include a spare wheel & tyre, 5 sheave hook block, 3 sheave hook block, single sheave hook block & headache ball, and an auxiliary winch for versatile lifting capabilities. Additional equipment includes a Rooster Sheave, jump start receptacle, external overload warning lights (XMAS Tree), and lockable battery & starter isolators. The crane also includes a rear timber box for convenient storage.
